

July, 2021
Don Rohrbaugh
Telford, PA

.Rena and I have been married for 52+ years. We have lived in Telford for the past 3 and 1/2 years in an independent living cottage at the Lutheran Community. I was more of the initiator to move. I found less and less enjoyment out of the outside work to maintain the acre of property we had previously. The only thing I miss is the large veggie garden that I had although that was becoming burdensome also. Moving to the Lutheran Community, which is a continuing care community means our children do not have to worry about us as we age. Plus we now have already downsized and were able to do that without much assistance.

Telford is like a suburban community. There is no downtown or shopping area other than a supermarket to which we can walk. We need to go to Souderton for most other shopping. Other than what I mentioned above, what we are doing with our free time has not changed. The only thing we do regularly at the community is use the gym and pool, which has been rather sporadic over the past year. I continue to play golf and play a lot of bridge. This past year the bridge playing has been online. Recently I have hooked up with Doug Miller and his wife, Martha, to play ON Wednesday mornings. I still do some gardening, but it is minimal compared to previously. This winter we have done about 4 jigsaw puzzles, two of which were of the 1500 piece variety

We attend our one granddaughter's softball games which are local. The Covid epidemic gave us the opportunity to see most of our other granddaughter's volleyball and basketball games Live on Facebook or YouTube. We only would have seen one of each sport otherwise .

As of now, I expect to attend the 60th reunion. We just received our second shot of the Covid vaccine so we are looking forward to doing more things . You can reach Don at drohrbs@gmail.com
